May 5-6, 2026 Station F, Paris

Junyi ZHONG

Affiliation: Founder & CEO of INNAIO France SAS /
Founder of CeDeFi Labs / Incubated AdTech Studio
Jumeau.ai

Junyi ZHONG

Job Title: CEO | AI Researcher | PhD in Trustworthy AI

Junyi Zhong is a multi-entrepreneur and AI researcher working across Artificial Intelligence, Voice OS, Digital Identity, and RWA Tokenization.

He holds a PhD in Trustworthy AI from École nationale des ponts et chaussées / Institut Polytechnique de Paris, focusing on Cognitive Digital Twins, privacy-preserving systems, and decentralized trust infrastructure.

He is the Founder and CEO of INNAIO France SAS, building AI Voice OS products where voice becomes the main interface for AI Agents. Its flagship product, Caption.IM, provides real-time subtitles, translation, and AI meeting summaries fully on-device.

He is also the Founder of CeDeFi Labs, where he created the Revenue Token (RT) framework for tokenizing future protocol revenues into tradable on-chain yield assets.

In parallel, he incubated Jumeau.ai, an AdTech studio focused on AI-driven digital persona systems, creator automation, and intelligent content production workflows.

Previously, he co-founded Desmo Labs at Station F, focused on digital identity and compliance infrastructure, and authored ERC-5851 for on-chain Verifiable Credentials.

His current work focuses on:

AI Voice OS and human-AI interaction

CeDeFi infrastructure and Revenue Tokenization

AI-native AdTech systems and digital personas

Privacy-preserving Digital Twins and Information Sovereignty

His goal is to build trusted infrastructure for the next generation of AI and digital finance.
